

STONE SINKS

Lux4home™ stone sinks are the unique collection of standing and vanity sinks each perfected by shape, form and color.

Each and every one of them is made of one piece of perfectly polished stone. Side walls are always of precise thickness.

Our sinks are made of marble, onyx, sandstone. They can be round, square oval, or asymmetric. They are made especially for you and ready for lifelong wear and tear.

Our basins are the product of experience, knowledge, and the skilled Indonesian craftsmen that we employ. Together we make them that way and in doing so they remind you of their natural origin.

Sinks
