

RIVER STONE
Lux4home™

Lux4home™ RIVER STONE

This collection consists of products made of natural river stones mined in the rivers of Indonesia. Landmarks, and rough shapes of the external surface remain unprocessed, just as they were created by nature. Only usable area has been given shaped and structured. That is why each piece is always different and unique ... Simplicity and minimalism in treatment are reminiscent of peace and meditation, making these products highly desirable for many years for both modern, and classic bathrooms ...

Why sinks from

Lux4home ?

1 The difference between outflows:

Production Lux4home™:

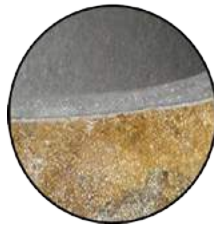

Amateur production:

2 Wider walls:

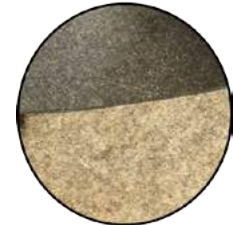

Production Lux4home™:

thickness about 2 cm

Amateur production:

thickness about 0,5 cm

Showertrays

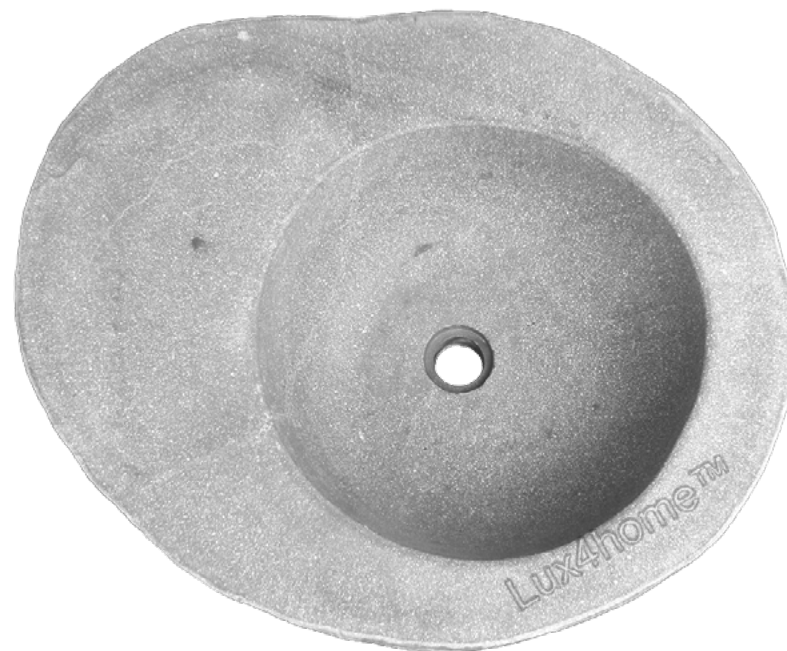

Vanity sinks
